*SUBJECT INDEX**

A

Abdominal aorta
Cholelithiasis and aortic reconstruction (String), 664
Rigid intraluminal prosthesis for replacement of thoracic and abdominal aorta (Lemole et al.), 22

Abdominal aortic aneurysm(s)
Abdominal aortic aneurysms: The changing natural history (Bickerstaff et al.), 6
Acute acalculous cholecystitis complicating abdominal aortic aneurysm resection (Ouriel et al.), 646
Aortic collagenase activity as affected by laparotomy, cecal resection, aortic mobilization, and aortotomy in rats (Cohen et al.), 562
Late survival after abdominal aortic aneurysm repair: Influence of coronary artery disease (Hollier et al.), 290
Natural history of periprosthetic air on computerized axial tomographic examination of the abdomen following abdominal aortic aneurysm repair (O'Hara et al.), 429
Role of medial lamellar architecture in the pathogenesis of aortic aneurysms (Zatina et al.), 442
Ruptured abdominal aortic aneurysm with horseshoe kidney (Gutowicz, Smullens), 689
The value of radionuclide angiography as a predictor of perioperative myocardial infarction in patients undergoing abdominal aortic aneurysm resection (Pasternack et al.), 320

Acalculous cholecystitis
Acute acalculous cholecystitis complicating abdominal aortic aneurysm resection (Ouriel et al.), 646

Acellular vascular matrix graft
Detergent-extracted small-diameter vascular prostheses (Malone et al.), 181

Amputation
A critical review of amputation in vascular patients (High, McDowell, Savrin), 653

Anastomoses
Use of fibrin sealant for reinforcing arterial anastomoses (Jakob et al.), 171

Anastomotic hyperplasia
Conformational stress and anastomotic hyperplasia (Pomposelli et al.), 525

Aneurysm(s)
Abdominal aortic aneurysms: The changing natural history (Bickerstaff et al.), 6
Acute acalculous cholecystitis complicating abdominal aortic aneurysm resection (Ouriel et al.), 646
Aortic collagenase activity as affected by laparotomy, cecal resection, aortic mobilization, and aortotomy in rats (Cohen et al.), 562
Atherosclerotic extracranial carotid artery aneurysms (Zwolak et al.), 415
Bacteriologic and surgical determinants of survival in patients with mycotic aneurysms (Brown et al.), 541
Intimal intussusception: Unusual complication of dissecting aneurysm (DeBakey, Lawrie), 566
Late survival after abdominal aortic aneurysm repair: Influence of coronary artery disease (Hollier et al.), 290
Natural history of periprosthetic air on computerized axial tomographic examination of the abdomen following abdominal aortic aneurysm repair (O'Hara et al.), 429
Role of medial lamellar architecture in the pathogenesis of aortic aneurysms (Zatina et al.), 442
Ruptured abdominal aortic aneurysm with horseshoe kidney (Gutowicz, Smullens), 689
The value of radionuclide angiography as a predictor of perioperative myocardial infarction in patients undergoing abdominal aortic aneurysm resection (Pasternack et al.), 320

Angiography
Correlation of operative findings with angiographic and noninvasive hemodynamic factors associated with

*January, pp. 1-242; March, pp. 243-386; May, 387-504; July, 505-604; September, 605-722; November, pp. 723-940.

failure of polytetrafluoroethylene grafts (O'Donnell et al.), 136
Is routine angiography necessary prior to carotid endarterectomy? (Ricotta et al.), 96
The value of radionuclide angiography as a predictor of perioperative myocardial infarction in patients undergoing abdominal aortic aneurysm resection (Pasternack et al.), 320

Antibiotics
Simple methods for direct antibiotic protection of synthetic vascular grafts (White et al.), 372

Antithrombin III
Antithrombin III deficiency as a reflection of dynamic protein metabolism in patients undergoing vascular reconstruction (Flinn et al.), 888

Aorta
Rigid intraluminal prosthesis for replacement of thoracic and abdominal aorta (Lemole et al.), 22

Aortic dissection
Carotid involvement in aortic dissection diagnosed by duplex scanning (Zirkle et al.), 700

Aortoenteric fistula
Iliac appendiceal fistula: Case presentation and review of management (Kitzmiller et al.), 695

Aortofemoral bypass grafts
Aortofemoral bypass grafts: Safety of percutaneous puncture (Da Silva et al.), 642
Extended autogenous profundaplasty and aortofemoral grafting: An alternative to synchronous distal bypass (Pearce, Kempczinski), 455

Aortofemoral revascularization
Aortofemoral or femoropopliteal revascularization? A prospective evaluation of the papaverine test (Flanigan et al.), 215

Aortoiliac occlusive disease
Spinal cord ischemia following surgery for aortoiliac occlusive disease (Sutton, Nesbit), 697

Argon laser
Acute effects of argon laser on human atherosclerotic plaque (Lawrence et al.), 852

Arterial infection
The relevance of arterial wall microbiology to the treatment of prosthetic graft infections: Graft infection vs. arterial infection (Macbeth et al.), 750

Arterial injuries
Renal artery injury from a Fogarty balloon catheter (Charlesworth, Brewster, Darling), 573

Arterial wall
Arterial wall thromboxane: Dominance after surgery predisposes to thrombosis (Hunter, Carson), 314
Conformational stress and anastomotic hyperplasia (Pomposelli et al.), 525
The relevance of arterial wall microbiology to the treatment of prosthetic graft infections: Graft infection vs. arterial infection vs. arterial infection (Macbeth et al.), 750

Arteriography
Carotid endarterectomy and completion contact arteriography (Alpert et al.), 548
Impact of routine arteriography on management of penetrating neck injuries (Hiatt et al.), 860

Arteriovenous fistula
Thrombectomy with temporary arteriovenous fistula: The treatment of choice in acute iliofemoral venous thrombosis (Plate et al.), 867

Artery *(see specific artery)*

***Aspergillus* infection**
Treatment of *Aspergillus* infection of the proximal aortic prosthetic graft with associated vertebral osteomyelitis (Anderson, Kron), 579

Aspirin
Aspirin therapy in small-caliber arterial prostheses: Long-term experimental observations (Zammit et al.), 839

Assessment, intraoperative
Intraoperative assessment of carotid endarterectomy (Zierler, Bandyk, Thiele), 73

Atheroma
"Coral reef" atherosclerosis of the suprarenal aorta: A unique clinical entity (Qvarfordt et al.), 903

Atherosclerosis
Acute effects of argon laser on human atherosclerotic plaque (Lawrence et al.), 852
Atherosclerotic extracranial carotid artery aneurysms (Zwolak et al.), 415
Capillary blood blow: Videodensitometry in the atherosclerotic patient (Schwartz et al.), 800
"Coral reef" atherosclerosis of the suprarenal aorta: A unique clinical entity (Qvarfordt et al.), 903

Atherosclerosis obliterans
Lower limb ischemia in young adults: Prognostic implications (Pairolero et al.), 459

Atherosclerotic plaque
Acute effects of argon laser on human atherosclerotic plaque (Lawrence et al.), 852

Axillary artery
Blunt trauma to the axillary artery (Donovan, Sharp), 681

Axillofemoral-renal bypass
Renal revascularization by extra-anatomic bypass (McCready, Hyde, Ernst), 569

B

Balloon catheter(s)
Hunter vena cava balloon: Rationale and results (Hunter, DeLaria), 49
Renal artery injury from a Fogarty balloon catheter (Charlesworth, Brewster, Darling), 573
Supraclavicular subclavian technique of intra-aortic balloon insertion (Rubenstein, Karhade), 577
Thromboembolism and cancer: Treatment with the Hunter balloon (DeLaria et al.), 670

Bird's nest filter
The bird's nest filter; A new percutaneous transcatheter inferior vena cava filter (Roehm Jr.), 498
Blood cardioplegia
Improved myocardial protection with blood and crystalloid cardioplegia (Weisel et al.), 656
Blood flow
Capillary blood flow: Videodensitometry in the atherosclerotic patient (Schwartz et al.), 800
Digital cutaneous fluorometry: Correlation between blood flow and fluorescence (Bongard et al.), 635
Endothelial cell–seeded four-millimeter Dacron vascular grafts: Effects of blood flow manipulation through the grafts (Schmidt et al.), 434
B-mode imaging *(see also* Noninvasive tests)
Real-time B-mode carotid imaging: A three-year multicenter experience (Comerota et al.), 84
Real-time B-mode venous ultrasound (Sullivan, Peter, Cranley), 465
Bypass graft *(see specific type)*
Bypass techniques
Introductory remarks (Mannick), 910

C

Cancer
Thromboembolism and cancer: Treatment with the Hunter balloon (DeLaria et al.), 670
Capillary blood flow
Capillary blood blow: Videodensitometry in the atherosclerotic patient (Schwartz et al.), 800
Cardioplegia
Improved myocardial protection with blood and crystalloid cardioplegia (Weisel et al.), 656
Carotid artery
Carotid involvement in aortic dissection diagnosed by duplex scanning (Zirkle et al.), 700
External carotid endarterectomy (Halstuk, Baker, Littooy), 398
Influence of the contralateral carotid artery on neurologic complications following carotid endarterectomy (Moore et al.), 409
Mandibular subluxation for high carotid exposure (Fisher Jr. et al.), 727
Natural history of carotid artery disease on the side contralateral to endarterectomy (Roederer et al.), 62
Noninvasive carotid artery evaluation following endarterectomy (Gonzalez, Partusch, Wirth), 403
Progress in carotid artery surgery at the base of the skull (Sandmann et al.), 734
Real-time B-mode carotid imaging: A three-year multicenter experience (Comerota et al.), 84
Surgical therapy for recent total occlusion of the internal carotid artery (Welling et al.), 57
Carotid bifurcation thromboendarterectomy
Surgical therapy for recent total occlusion of the internal carotid artery (Welling et al.), 57
Carotid endarterectomy
Carotid endarterectomy and completion contact arteriography (Alpert et al.), 548
Carotid endarterectomy for nonhemispheric symptoms: Predictors of success (Ouriel et al.), 339
Carotid endarterectomy without a shunt: The control series (Baker et al.), 50
Early carotid endarterectomy in patients with small, fixed neurologic deficits (Whittemore et al.), 795
External carotid endarterectomy (Halstuk, Baker, Littooy), 398
Hypertension following carotid endarterectomy: The role of cerebral renin production (Smith), 623
Influence of the contralateral carotid artery on neurologic complications following carotid endarterectomy (Moore et al.), 409
Intraoperative assessment of carotid endarterectomy (Zierler, Bandyk, Thiele), 73
Is routine angiography necessary prior to carotid endarterectomy? (Ricotta et al.), 96
Late survival after carotid endarterectomy for transient ischemic attacks (Lord), 512
Minimizing the risks of carotid endarterectomy (Hafner), 392
Noninvasive carotid artery evaluation following endarterectomy (Gonzalez, Partusch, Wirth), 403
Carotid plaque
The correlation between carotid plaque ulceration and cerebral infarction seen on CT scan (Zukowski et al.), 782
Carotid siphon
The natural history of isolated carotid siphon stenosis (Borozan et al.), 744
Carotid steal syndrome
Carotid steal syndrome following carotid subclavian bypass (Otis et al.), 649
Carotid stump pressures
Minimizing the risks of carotid endarterectomy (Hafner), 392
Carotid subclavian bypass
Carotid steal syndrome following carotid subclavian bypass (Otis et al.), 649
Cell culture
Human adult endothelial cell growth in culture (Jarrell et al.), 757
Cell membrane potential
Cellular changes with graded limb ischemia and reperfusion (Perry, Shires, Albert), 536
Cerebral infarction
The correlation between carotid plaque ulceration and cerebral infarction seen on CT scan (Zukowski et al.), 782
Cerebral renin
Hypertension following carotid endarterectomy: The role of cerebral renin production (Smith), 623
Certification
Certification (Evans), 388

Cholecystitis
Acute acalculous cholecystitis complicating abdominal aortic aneurysm resection (Ouriel et al.), 646
Cholelithiasis
Cholelithiasis and aortic reconstruction (String), 664
Claudication
Thigh claudication due to profunda femoris artery occlusion (Martin III), 692
Coagulation
Sequential changes in coagulation and platelet function following femorotibial bypass (McDaniel et al.), 261
Collagenase
Aortic collagenase activity as affected by laparotomy, cecal resection, aortic mobilization, and aortotomy in rats (Cohen et al.), 562
Complement activation
Complement activation by synthetic vascular prostheses (Shepard et al.), 829
Completion contact arteriography
Carotid endarterectomy and completion contact arteriography (Alpert et al.), 548
Composite sequential bypass
Composite sequential bypasses to the ankle and beyond for limb salvage (Verta Jr.), 381
Composite sequential grafts in severe ischemia: A comparative study (Flinn et al.), 449
Computerized data management
Basic information for microcomputer data base management (Gordon), 585
Computerized data management for the vascular surgeon: Introductory remarks. A plea for uniform reporting practices (Rutherford), 582
Development of a computerized vascular registry for large-scale use (Karmody et al.), 594
Microcomputer-based programs for the practicing vascular surgeon (Dardik, Dardik), 590
System for widespread application of microcomputers to vascular surgery (Gupta et al.), 601
Conformational stress
Conformational stress and anastomotic hyperplasia (Pomposelli et al.), 525
"Coral reef" atherosclerosis
"Coral reef" atherosclerosis of the suprarenal aorta: A unique clinical entity (Qvarfordt et al.), 903
Coronary artery bypass graft
Combined valve replacement and myocardial revascularization (Geha et al.), 27
A four-year experience with preoperative noninvasive carotid evaluation of two thousand twenty-six patients undergoing cardiac surgery (Brener et al.), 326
Coronary artery disease
Combined coronary artery and peripheral vascular disease: Recognition and treatment (DeBakey, Lawrie), 605
Late survival after abdominal aortic aneurysm repair: Influence of coronary artery disease (Hollier et al.), 290
Crystalloid cardioplegia
Improved myocardial protection with blood and crystalloid cardioplegia (Weisel et al.), 656
CT scan
The correlation between carotid plaque ulceration and cerebral infarction seen on CT scan (Zukowski et al.), 782
Natural history of periprosthetic air on computerized axial tomographic examination of the abdomen following abdominal aortic aneurysm repair (O'Hara et al.), 429

D

Dacron grafts
Aspirin therapy in small-caliber arterial prostheses: Long-term experimental observations (Zammit et al.), 839
Endothelial cell–seeded four-millimeter Dacron vascular grafts: Effects of blood flow manipulation through the grafts (Schmidt et al.), 434
Influence of endothelial cell seeding on platelet deposition and patency in small-diameter Dacron arterial grafts (Allen et al.), 224
Simple methods for direct antibiotic protection of synthetic vascular grafts (White et al.), 372
Data management
Basic information for microcomputer data base management (Gordon), 585
Computerized data management for the vascular surgeon: Introductory remarks. A plea for uniform reporting practices (Rutherford), 582
Development of a computerized vascular registry for large-scale use (Karmody et al.), 594
The limitations of predictability of success of femoral-popliteal bypass grafts (Hiatt et al.), 617
Microcomputer-based programs for the practicing vascular surgeon (Dardik, Dardik), 590
System for widespread application of microcomputers to vascular surgery (Gupta et al.), 601
Devascularization
Results of six hundred thirty-six esophageal transections with paraesophagogastric devascularization in the treatment of esophageal varices (Sugiura, Futagawa), 254
Dextran 40
The efficacy of dextran 40 in preventing early postoperative thrombosis following difficult lower extremity bypass (Rutherford et al.), 765
Dihydroergotamine
Prophylactic efficacy of low-dose dihydroergotamine and heparin in postoperative deep venous thrombosis following intra-abdominal operations (Multicenter Trial Committee), 608
Dissecting aneurysm
Intimal intussusception: Unusual complication of dissecting aneurysm (DeBakey, Lawrie), 566

Drug addicts
Infected false aneurysms of the subclavian artery: A complication in drug addicts (Miller et al.), 684
Duplex scanning (*see also* Noninvasive tests)
Carotid involvement in aortic dissection diagnosed by duplex scanning (Zirkle et al.), 700
Noninvasive evaluation of renal artery stenosis and renovascular resistance. Experimental and clinical studies (Norris et al.), 192

E

Echocardiography
Monitoring with two-dimensional transesophageal echocardiography: Comparison of myocardial function in patients undergoing supraceliac, suprarenal-renal-infraceliac, or infrarenal aortic occlusion (Roizen et al.), 300
Endarterectomy (*see* Carotid endartectomy)
Endothelial cell seeding
Endothelial cell–seeded four-millimeter Dacron vascular grafts: Effects of blood flow manipulation through the grafts (Schmidt et al.), 434
Influence of endothelial cell seeding on platelet deposition and patency in small-diameter Dacron arterial grafts (Allen et al.), 224
Patency in canine inferior vena cava grafting: Effects of graft material, size, and endothelial seeding (Herring et al.), 877
Seeding human arterial prostheses with mechanically derived endothelium: The detrimental effect of smoking (Herring, Gardner, Glover), 279
Endothelial cells
Human adult endothelial cell growth in culture (Jarrell et al.), 757
Esophageal varices
Results of six hundred thirty-six esophageal transections with paraesophagogastric devascularization in the treatment of esophageal varices (Sugiura, Futagawa), 254
Extra-anatomic bypass
Renal revascularization by extra-anatomic bypass (McCready, Hyde, Ernst), 569
Extracranial carotid artery
Atherosclerotic extracranial carotid artery aneurysms (Zwolak et al.), 415

F

False aneurysms
Infected false aneurysms of the subclavian artery: A complication in drug addicts (Miller et al.), 684
Femoral artery
Analysis of femoral artery Doppler signals by Laplace transform damping method (Baker, Machleder, Skidmore), 520
Femorofemoral bypass
Femorofemoral bypass grafts: Ten-year experience (Plecha, Plecha), 555
Femoropopliteal bypass
The limitations of predictability of success of femoropopliteal bypass grafts (Hiatt et al.), 617
Femoropopliteal revascularization
Aortofemoral or femoropopliteal revascularization? A prospective evaluation of the papaverine test (Flanigan et al.), 215
Femorotibial bypass
Gore-Tex autogenous vein composite grafts for tibial reconstruction (Wheeler et al.), 914
In situ saphenous vein arterial bypass to the tibial arteries (Leather), 912
Introductory remarks to Symposium on Femoral-Tibial Bypass (Mannick), 910
Sequential changes in coagulation and platelet function following femorotibial bypass (McDaniel et al.), 261
Technical aspects of umbilical bypass to the tibial vessels (Dardik), 916
Fibrin sealant
Use of fibrin sealant for reinforcing arterial anastomoses (Jakob et al.), 171
Fibrinolysis
Low-dose direct fibrinolysis in peripheral vascular disease (Katzen et al.), 718
Filters (*see specific type*)
Fistula
Iliac appendiceal fistula: Case presentation and review of management (Kitzmiller et al.), 695
Thrombectomy with temporary arteriovenous fistula: The treatment of choice in acute iliofemoral venous thrombosis (Plate et al.), 867
Upper arm graft fistula for hemodialysis (Steed et al.), 660
Flow abnormalities
In vitro observations of greater saphenous vein valves during pulsatile and nonpulsatile flow and following lysis (McCaughan Jr. et al.), 356
Flow waveforms
A desktop computer to visualize the intraluminal velocity profile and its clinical application (Inokuchi et al.), 787
Fluorescence
Digital cutaneous fluorometry: Correlation between blood flow and fluorescence (Bongard et al.), 635
Fluorometry
Digital cutaneous fluorometry: Correlation between blood flow and fluorescence (Bongard et al.), 635
Fogarty balloon catheter
Renal artery injury from a Fogarty balloon catheter (Charlesworth, Brewster, Darling), 573

G

Glucagon
Pharmacologic interventions in acute mesenteric ischemia: Improved survival with intravenous glucagon, methylprednisolone, and prostacyclin (Kazmers et al.), 472

Gore-Tex grafts
Gore-Tex autogenous vein composite grafts for tibial reconstruction (Wheeler et al.), 914
Graft(s) *(see specific type)*
Graft failure
Correlation of operative findings with angiographic and noninvasive hemodynamic factors associated with failure of polytetrafluoroethylene grafts (O'Donnell et al.), 136
Femorofemoral bypass grafts: Ten-year experience (Plecha, Plecha), 555
In vitro observations of greater saphenous vein valves during pulsatile and nonpulsatile flow and following lysis (McCaughan Jr. et al.), 356
Graft fistula
Upper arm graft fistula for hemodialysis (Steed et al.), 660
Graft infection
Immunocompetence in patients with prosthetic graft infection (Kwaan, Dahl, Connolly), 45
Late results following surgical management of vascular graft infection (Reilly et al.), 36
Natural history of periprosthetic air on computerized axial tomographic examination of the abdomen following abdominal aortic aneurysm repair (O'Hara et al.), 429
The relevance of arterial wall microbiology to the treatment of prosthetic graft infections: Graft infection vs. arterial infection (Macbeth et al.), 750
Simple methods for direct antibiotic protection of synthetic vascular grafts (White et al.), 372
Treatment of *Aspergillus* infection of the proximal aortic prosthetic graft with associated vertebral osteomyelitis (Anderson, Kron), 579
Graft occlusions
Local thrombolysis in the treatment of arterial graft occlusions (van Breda et al.), 103
Graft patency
Components of outflow resistance and their correlation with graft patency in lower extremity arterial reconstructions (Ascer et al.), 817
The efficacy of dextran 40 in preventing early postoperative thrombosis following difficult lower extremity bypass (Rutherford et al.), 765
Endothelial cell–seeded four-millimeter Dacron vascular grafts: Effects of blood flow manipulation through the grafts (Schmidt et al.), 434
Favorable balance of prostacyclin and thromboxane A_2 improves early patency of human in situ vein grafts (Bush et al.), 149
Femorofemoral bypass grafts: Ten-year experience (Plecha, Plecha), 555
Influence of endothelial cell seeding on platelet deposition and patency in small-diameter Dacron arterial grafts (Allen et al.), 224
The limitations of predictability of success of femoral-popliteal bypass grafts (Hiatt et al.), 617
Patency in canine inferior vena cava grafting: Effects of graft material, size, and endothelial seeding (Herring et al.), 877
Sequential changes in coagulation and platelet function following femorotibial bypass (McDaniel et al.), 261
Greenfield filter
Current indications for and results of Greenfield filter placement (Greenfield), 502
Suprarenal placement of vena caval filters: Indications, techniques, and results (Orsini, Jarrell), 124

H

Hemangioma
Massive hemangioma in infants: Therapeutic considerations (Weber et al.), 423
Hemodialysis
Upper arm graft fistula for hemodialysis (Steed et al.), 660
Heparin
Depressed cardiovascular function and altered platelet kinetics following protamine sulfate reversal of heparin activity (Wakefield, Whitehouse, Stanley), 346
Prophylactic efficacy of low-dose dihydroergotamine and heparin in postoperative deep venous thrombosis following intra-abdominal operations (Multicenter Trial Committee), 608
Homologous vein grafts
Homologous veins as an arterial substitute: Long-term results (Ochsner et al.), 306
Horseshoe kidney
Ruptured abdominal aortic aneurysm with horseshoe kidney (Gutowicz, Smullens), 689
Hospital size
The risk of vascular surgery in a metropolitan community: With observations on surgeon experience and hospital size (Hertzer et al.), 13
Hunter vena cava balloon
Hunter vena cava balloon: Rationale and results (Hunter, DeLaria), 491
Thromboembolism and cancer: Treatment with the Hunter balloon (DeLaria et al.), 670
Hypercoagulability
Abnormal plasminogen: A genetically determined cause of hypercoagulability (Towne et al.), 896
Hypertension
Hypertension following carotid endarterectomy: The role of cerebral renin production (Smith), 623

I

Ibuprofen
Arterial wall thromboxane: Dominance after surgery predisposes to thrombosis (Hunter, Carson), 314
Immunocompetence
Immunocompetence in patients with prosthetic graft infection (Kwaan, Dahl, Connolly), 45
Infants
Massive hemangioma in infants: Therapeutic considerations (Weber et al.), 423

Infections
Infected false aneurysms of the subclavian artery: A complication in drug addicts (Miller et al.), 684
Inferior vena cava graft(s)
Inferior vena cava bypass: Experimental evaluation of externally supported grafts and initial clinical application (Chan, Bardin, Bernstein), 675
Patency in canine inferior vena cava grafting: Effects of graft material, size, and endothelial seeding (Herring et al.), 877
Instrumentation
Instrumental evolution of the valve incision method of in situ saphenous vein bypass (Leather et al.), 113
Introduction to Symposium on Transvenous Vena Cava Interruption (Brewster), 487
Internal carotid artery
Surgical therapy for recent total occlusion of the internal carotid artery (Welling et al.), 57
Interventional radiology
Low-dose direct fibrinolysis in peripheral vascular disease (Katzen et al.), 718
Percutaneous transcatheter embolization of lesions of the extremities (Train et al.), 710
Percutaneous transluminal dilatation of peripheral arteries: An analysis of factors predicting early success (Lally, Johnston, Andrews), 704
Intimal intussusception
Intimal intussusception: Unusual complication of dissecting aneurysm (DeBakey, Lawrie), 566
Intra-aortic balloon
Supraclavicular subclavian technique of intra-aortic balloon insertion (Rubenstein, Karhade), 577
Intraluminal prosthesis
Rigid intraluminal prosthesis for replacement of thoracic and abdominal aorta (Lemole et al.), 22
Intraluminal velocity profile
A desktop computer to visualize the intraluminal velocity profile and its clinical application (Inokuchi et al.), 787
Intraoperative assessment
Intraoperative assessment of carotid endarterectomy (Zierler, Bandyk, Thiele), 73
Intussusception, intimal
Intimal intussusception: Unusual complication of dissecting aneurysm (DeBakey, Lawrie), 566
Ischemia
Cellular changes with graded limb ischemia and reperfusion (Perry, Shires, Albert), 536
Composite sequential grafts in severe ischemia: A comparative study (Flinn et al.), 449
Differential management of acute peripheral arterial ischemia (Dale), 269
Lower limb ischemia in young adults: Prognostic implications (Pairolero et al.), 459
Pharmacologic interventions in acute mesenteric ischemia: Improved survival with intravenous glucagon, methylprednisolone, and prostacyclin (Kazmers et al.), 472
Role of medial lamellar architecture in the pathogenesis of aortic aneurysms (Zatina et al.), 442
Spinal cord ischemia following surgery for aortoiliac occlusive disease (Sutton, Nesbit), 697
Ischemic ulcers
Efficacy of prostaglandin E_1 in the treatment of lower extremity ischemic ulcers secondary to peripheral vascular occlusive disease. Results of a prospective randomized, double-blind, multicenter clinical trial (Schuler et al.), 160

J

Journal of Vascular Surgery
Vascular surgery's new forum (DeBakey, Szilagyi, Thompson), 1

L

Lamellar architecture
Role of medial lamellar architecture in the pathogenesis of aortic aneurysms (Zatina et al.), 442
Laplace transform damping method
Analysis of femoral artery Doppler signals by Laplace transform damping method (Baker, Machleder, Skidmore), 520
Laser angioplasty
Acute effects of argon laser on human atherosclerotic plaque (Lawrence et al.), 852
Lesions
Percutaneous transcatheter embolization of lesions of the extremities (Train et al.), 710
Limb salvage
Composite sequential bypasses to the ankle and beyond for limb salvage (Verta Jr.), 381
Peroneal artery bypass: A reappraisal of its value in limb salvage (Karmody et al.), 809
Lower extremity(ies)
Components of outflow resistance and their correlation with graft patency in lower extremity arterial reconstructions (Ascer et al.), 817
A critical review of amputation in vascular patients (High, McDowell, Savrin), 653
A desktop computer to visualize the intraluminal velocity profile and its clinical application (Inokuchi et al.), 787
Lower limb ischemia in young adults: Prognostic implications (Pairolero et al.), 459
Percutaneous transcatheter embolization of lesions of the extremities (Train et al.), 710
Lower extremity bypass
The efficacy of dextran 40 in preventing early postoperative thrombosis following difficult lower extremity bypass (Rutherford et al.), 765
Lower extremity ischemia
Differential management of acute peripheral arterial ischemia (Dale), 269

Lysis
In vitro observations of greater saphenous vein valves during pulsatile and nonpulsatile flow and following lysis (McCaughan Jr. et al.), 356

M

Management, surgical
Iliac appendiceal fistula: Case presentation and review of management (Kitzmiller et al.), 695
Impact of routine arteriography on management of penetrating neck injuries (Hiatt et al.), 860
Late results following surgical management of vascular graft infection (Reilly et al.), 36
Operative management of renovascular hypertension: Results after a follow-up of fifteen to twenty-three years (Dean et al.), 234
Progress in carotid artery surgery at the base of the skull (Sandmann et al.), 734
Mandibular subluxation
Mandibular subluxation for high carotid exposure (Fisher Jr. et al.), 727
Methylprednisolone
Pharmacologic interventions in acute mesenteric ischemia: Improved survival with intravenous glucagon, methylprednisolone, and prostacyclin (Kazmers et al.), 472
Microcomputers
Basic information for microcomputer data base management (Gordon), 585
A desktop computer to visualize the intraluminal velocity profile and its clinical application (Inokuchi et al.), 787
Microcomputer-based programs for the practicing vascular surgeon (Dardik, Dardik), 590
System for widespread application of microcomputers to vascular surgery (Gupta et al.), 601
Mycotic aneurysms
Bacteriologic and surgical determinants of survival in patients with mycotic aneurysms (Brown et al.), 541
Myocardial function
Monitoring with two-dimensional transesophageal echocardiography: Comparison of myocardial function in patients undergoing supraceliac, suprarenal-infraceliac, or infrarenal aortic occlusion (Roizen et al.), 300
Myocardial infarction
The value of radionuclide angiography as a predictor of perioperative myocardial infarction in patients undergoing abdominal aortic aneurysm resection (Pasternack et al.), 320
Myocardial protection
Improved myocardial protection with blood and crystalloid cardioplegia (Weisel et al.), 656
Myocardial revascularization
Combined valve replacement and myocardial revascularization (Geha et al.), 27

N

Neck injuries
Impact of routine arteriography on management of penetrating neck injuries (Hiatt et al.), 860
Nephrectomy
Operative management of renovascular hypertension: Results after a follow-up of fifteen to twenty-three years (Dean et al.), 234
Neurologic deficits
Early carotid endartegectomy in patients with small, fixed neurologic deficits (Whittemore et al.), 795
Noninvasive tests
Assessment of peripheral vascular disease by postocclusive transcutaneous oxygen recovery time (Kram et al.), 628
Correlation of operative findings with angiographic and noninvasive hemodynamic factors associated with failure of polytetrafluoroethylene grafts (O'Donnell et al.), 136
A four-year experience with preoperative noninvasive carotid evaluation of two thousand twenty-six patients undergoing cardiac surgery (Brener et al.), 326
Natural history of carotid artery disease on the side contralateral to endarterectomy (Roederer et al.), 62
Noninvasive carotid artery evaluation following endarterectomy (Gonzalez, Partusch, Wirth), 403
Noninvasive evaluation of renal artery stenosis and renovascular resistance: Experimental and clinical studies (Norris et al.), 192
Real-time B-mode venous ultrasound (Sullivan, Peter, Cranley), 465

O

Occlusion
Abnormal plasminogen: A genetically determined cause of hypercoagulability (Towne et al.), 896
Local thrombolysis in the treatment of arterial graft occlusions (van Breda et al.), 103
Low-dose direct fibrinolysis in peripheral vascular disease (Katzen et al.), 718
Monitoring with two-dimensional transesophageal echocardiography: Comparison of myocardial function in patients undergoing supraceliac, suprarenal-renal-infraceliac, or infrarenal aortic occlusion (Roizen et al.), 300
Surgical therapy for recent total occlusion of the internal carotid artery (Welling et al.), 57
Thigh claudication due to profunda femoris artery occlusion (Martin III), 692
Utility of transcutaneous oxygen tension measurements in peripheral arterial occlusive disease (Cina et al.), 362
Osteomyelitis
Treatment of *Aspergillus* infection of the proximal aortic prosthetic graft with associated vertebral osteomyelitis (Anderson, Kron), 579

Outflow resistance
Components of outflow resistance and their correlation with graft patency in lower extremity arterial reconstructions (Ascer et al.), 817

P

Papaverine test
Aortofemoral or femoropopliteal revascularization? A prospective evaluation of the papaverine test (Flanigan et al.), 215
Percutaneous puncture
Aortofemoral bypass grafts: Safety of percutaneous puncture (Da Silva et al.), 642
Peripheral arterial occlusive disease
Percutaneous transluminal dilatation of peripheral arteries: An analysis of factors predicting early success (Lally, Johnston, Andrews), 704
Utility of transcutaneous oxygen tension measurements in peripheral arterial occlusive disease (Cina et al.), 362
Peripheral vascular disease
Assessment of peripheral vascular disease by postocclusive transcutaneous oxygen recovery time (Kram et al.), 628
Combined coronary artery and peripheral vascular disease: Recognition and treatment (DeBakey, Lawrie), 605
Efficacy of prostglandin E_1 in the treatment of lower extremity ischemic ulcers secondary to peripheral vascular occlusive disease. Results of a prospective randomized, double-blind, multicenter clinical trial (Schuler et al.), 160
Low-dose direct fibrinolysis in peripheral vascular disease (Katzen et al.), 718
Periprosthetic air
Natural history of periprosthetic air on computerized axial tomographic examination of the abdomen following abdominal aortic aneurysm repair (O'Hara et al.), 429
Peroneal artery bypass
Peroneal artery bypass: A reappraisal of its value in limb slavage (Karmody et al.), 809
Plasminogen
Abnormal plasminogen: A genetically determined cause of hypercoagulability (Towne et al.), 896
Platelets
Influence of endothelial cell seeding on platelet deposition and patency in small-diameter Dacron arterial grafts (Allen et al.), 224
Depressed cardiovascular function and altered platelet kinetics following protamine sulfate reversal of heparin activity (Wakefield, Whitehouse, Stanley), 346
Prostaglandin production and platelet reactivity of small-diameter grafts (Sicard et al.), 774
Sequential changes in coagulation and platelet function following femorotibial bypass (McDaniel et al.), 261
Portal hypertension
Results of six hundred thirty-six esophageal transections with paraesophagogastric devascularization in the treatment of esophageal varices (Sugiura, Futagawa), 254
Polytetrafluoroethylene grafts
Correlation of operative findings with angiographic and noninvasive hemodynamic factors associated with failure of polytetrafluoroethylene grafts (O'Donnell et al.), 136
Primary renal disease
Effect of primary renal disease in patients with renovascular insufficiency (Adams et al.), 482
Profunda femoris artery
Thigh claudication due to profunda femoris artery occlusion (Martin III), 692
Profundaplasty
Extended autogenous profundaplasty and aortofemoral grafting: An alternative to synchronous distal bypass (Pearce, Kempczinski), 455
Prostaglandins
Arterial wall thromboxane: Dominance after surgery predisposes to thrombosis (Hunter, Carson), 314
Efficacy of prostaglandin E_1 in the treatment of lower extremity ischemic ulcers secondary to peripheral vascular occlusive disease. Results of a prospective randomized, double-blind, multicenter clinical trial (Schuler et al.), 160
Favorable balance of prostacyclin and thromboxane A_2improves early patency of human in situ vein grafts (Bush et al.), 149
Pharmacologic interventions in acute mesenteric ischemia: Improved survival with intravenous glucagon, methylprednisolone, and prostacyclin (Kazmers et al.), 472
Prostaglandin production and platelet reactivity of small-diameter grafts (Sicard et al.), 774
Prostheses
Aspirin therapy in small-caliber arterial prostheses: Long-term experimental observations (Zammit et al.), 839
Complement activation by synthetic vascular prostheses (Shepard et al.), 829
Detergent-extracted small-diameter vascular prostheses (Malone et al.), 181
Rigid intraluminal prosthesis for replacement of thoracic and abdominal aorta (Lemole et al.), 22
Seeding human arterial prostheses with mechanically derived endothelium: The detrimental effect of smoking (Herring, Gardner, Glover), 279
Protamine sulfate
Depressed cardiovascular function and altered platelet kinetics following protamine sulfate reversal of heparin activity (Wakefield, Whitehouse, Stanley), 346
Prosthetic graft infection
Immunocompetence in patients with prosthetic graft infection (Kwaan, Dahl, Connolly), 45
Late results following surgical management of vascular graft infection (Reilly et al.), 36

Natural history of periprosthetic air on computerized axial tomographic examination of the abdomen following abdominal aortic aneurysm repair (O'Hara et al.), 429
The relevance of arterial wall microbiology to the treatment of prosthetic graft infections: Graft infection vs. arterial infection (Macbeth et al.), 750

Protein metabolism
Antithrombin III deficiency as a reflection of dynamic protein metabolism in patients undergoing vascular reconstruction (Flinn et al.), 888

R

Reconstruction(s)
Cholelithiasis and aortic reconstruction (String), 664
Components of outflow resistance and their correlation with graft patency in lower extremity arterial reconstructions (Ascer et al.), 817
Gore-Tex autogenous vein composite grafts for tibial reconstruction (Wheeler et al.), 914
Antithrombin III deficiency as a reflection of dynamic protein metabolism in patients undergoing vascular reconstruction (Flinn et al.), 888
Technical aspects of umbilical bypass to the tibial vessels (Dardik), 916

Renal artery
Noninvasive evaluation of renal artery stenosis and renovascular resistance: Experimental and clinical studies (Norris et al.), 192
Renal artery injury from a Fogarty balloon catheter (Charlesworth, Brewster, Darling), 573

Renal disease
Effect of primary renal disease in patients with renovascular insufficiency (Adams et al.), 482

Renal revascularization
Renal revascularization by extra-anatomic bypass (McCready, Hyde, Ernst), 569

Renin production
Hypertension following carotid endarterectomy: The role of cerebral renin production (Smith), 623

Renovascular hypertension
Operative management of renovascular hypertension: Results after a follow-up of fifteen to twenty-three years (Dean et al.), 234

Renovascular insufficiency
Effect of primary renal disease in patients with renovascular insufficiency (Adams et al.), 482

Renovascular resistance
Noninvasive evaluation of renal artery stenosis and renovascular resistance: Experimental and clinical studies (Norris et al.), 192

Reperfusion
Cellular changes with graded limb ischemia and reperfusion (Perry, Shires, Albert), 536

Revascularization
Aortofemoral or femoropopliteal revascularization? A prospective evaluation of the papaverine test (Flanigan et al.), 215
Combined valve replacement and myocardial revascularization (Geha et al.), 27
Renal revascularization by extra-anatomic bypass (McCready, Hyde, Ernst), 569

S

Saphenous vein
In situ saphenous vein arterial bypass to the tibial arteries (Leather), 912
In vitro observations of greater saphenous vein valves during pulsatile and nonpulsatile flow and following lysis (McCaughan Jr. et al.), 356
Instrumental evolution of the valve incision method of in situ saphenous vein bypass (Leather et al.), 113

Saphenous vein bypass
Instrumental evolution of the valve incision method of in situ saphenous vein bypass (Leather et al.), 113

Scientific presentations
Whither the discussant? (Barnes), 505
The elusive target: Truth in scientific reporting. Comments on error, self-delusion, deceit, and fraud (Szilagyi), 243

Sealants
Use of fibrin sealant for reinforcing arterial anastomoses (Jakob et al.), 171

Shunt
Carotid endarterectomy without a shunt: The control series (Baker et al.), 50

Siphon stenosis
The natural history of isolated carotid siphon stenosis (Borozan et al.), 744

Smoking
Seeding human arterial prostheses with mechanically derived endothelium: The detrimental effect of smoking (Herring, Gardner, Glover), 279

Spinal cord
Spinal cord ischemia following surgery for aortoiliac occlusive disease (Sutton, Nesbit), 697

Stenosis
Carotid endarterectomy for nonhemispheric symptoms: Predictors of success (Ouriel et al.), 339
Influence of the contralateral carotid artery on neurologic complications following carotid endarterectomy (Moore et al.), 409
The natural history of isolated carotid siphon stenosis (Borozan et al.), 744
Noninvasive evaluation of renal artery stenosis and renovascular resistance: Experimental and clinical studies (Norris et al.), 192

Subclavian artery
Infected false aneurysms of the subclavian artery: A complication in drug addicts (Miller et al.), 684
Supraclavicular subclavian technique of intra-aortic balloon insertion (Rubenstein, Karhade), 577

Sugiura procedure
Results of six hundred thirty-six esophageal transections with paraesophagogastric devascularization in the

treatment of esophageal varices (Sugiura, Futagawa), 254

Suprarenal aorta
"Coral reef" atherosclerosis of the suprarenal aorta: A unique clinical entity (Qvarfordt et al.), 903

Surgeon experience
The risk of vascular surgery in a metropolitan community: With observations on surgeon experience and hospital size (Hertzer et al.), 13

Sympathectomy
Current status of thoracic dorsal sympathectomy (Welch, Geary), 202

Synchronous distal bypass
Extended autogenous profundaplasty and aortofemoral grafting: An alternative to synchronous distal bypass (Pearce, Kempczinski), 455

Synthetic prostheses
Complement activation by synthetic vascular prostheses (Shepard et al.), 829
Patency in canine inferior vena cava grafting: Effects of graft material, size, and endothelial seeding (Herring et al.), 877

T

Thrombectomy
Thrombectomy with temporary arteriovenous fistula: The treatment of choice in acute iliofemoral venous thrombosis (Plate et al.), 867

Thromboangiitis obliterans
Lower limb ischemia in young adults: Prognostic implications (Pairolero et al.), 459

Thromboembolism
Current indications for and results of Greenfield filter placement (Greenfield), 502
Hunter vena cava balloon: Rationale and results (Hunter, DeLaria), 491
Introduction to Symposium on Transvenous Vena Cava Interruption (Brewster), 487
Suprarenal placement of vena caval filters: Indications, techniques, and results (Orsini, Jarrell), 124
Thromboembolism and cancer: Treatment with the Hunter balloon (DeLaria et al.), 670

Thrombolysis
Local thrombolysis in the treatment of arterial graft occlusions (van Breda et al.), 103

Thrombosis
Abnormal plasminogen: A genetically determined cause of hypercoagulability (Towne et al.), 896
Arterial wall thromboxane: Dominance after surgery predisposes to thrombosis (Hunter, Carson), 314
Detergent-extracted small-diameter vascular prostheses (Malone et al.), 181
The efficacy of dextran 40 in preventing early postoperative thrombosis following difficult lower extremity bypass (Rutherford et al.), 765
Pathophysiology of venous claudication (Killewich et al.), 507
Prophylactic efficacy of low-dose dihydroergotamine and heparin in postoperative deep venous thrombosis following intra-abdominal operations (Multicenter Trial Committee), 608
Thrombectomy with temporary arteriovenous fistula: The treatment of choice in acute iliofemoral venous thrombosis (Plate et al.), 867

Thromboxane
Arterial wall thromboxane: Dominance after surgery predisposes to thrombosis (Hunter, Carson), 314
Favorable balance of prostacycline and thromboxane A_2 improves early patency of human in situ vein grafts (Bush et al.), 149

Tibial arteries
In situ saphenous vein arterial bypass to the tibial arteries (Leather), 912

Training of vascular surgeons
There is no second (Bergan), 723
Vascular surgery: A brief look back and then to the future (Fry), 3

Transcatheter embolization
Percutaneous transcatheter embolization of lesions of the extremities (Train et al.), 710

Transcutaneous oxygen
Assessment of peripheral vascular disease by postocclusive transcutaneous oxygen recovery time (Kram et al.), 628
Utility of transcutaneous oxygen tension measurements in peripheral arterial occlusive disease (Cina et al.), 362

Transections, esophageal
Results of six hundred thirty-six esophageal transections with paraesophagogastric devascularization in the treatment of esophageal varices (Sugiura, Futagawa), 254

Transient ischemic attacks
Late survival after carotid endarterectomy for transient ischemic attacks (Lord), 512

Transluminal dilatation
Percutaneous transluminal dilatation of peripheral arteries: An analysis of factors predicting early success (Lally, Johnston, Andrews), 704

Transvenous vena cava interruption
The bird's nest filter: A new percutaneous transcatheter inferior vena cava filter (Roehm Jr.), 498
Current indications for and results of Greenfield filter placement (Greenfield), 502
Hunter vena cava balloon: Rationale and results (Hunter, DeLaria), 491
Introduction to Symposium on Transvenous Vena Cava Interruption (Brewster), 487

Trauma
Blunt trauma to the axillary artery (Donovan, Sharp), 681

U

Ulcers
The correlation between carotid plaque ulceration and cerebral infarction seen on CT scan (Zukowski et al.), 782

Efficacy of prostaglandin E_1 in the treatment of lower extremity ischemic ulcers secondary to peripheral vascular occlusive disease. Results of a prospective randomized, double-blind, multicenter clinical trial (Schuler et al.), 160

Ultrasonic techniques (*see also* Noninvasive tests)
Real-time B-mode carotid imaging: A three-year multicenter experience (Comerota et al.), 84
Real-time B-mode venous ultrasound (Sullivan, Peter, Cranley), 465

Umbilical vein bypass
Technical aspects of umbilical bypass to the tibial vessels (Dardik), 916

V

Valve incision method
Instrumental evolution of the valve incision method of in situ saphenous vein bypass (Leather et al.), 113

Valve replacement
Combined valve replacement and myocardial revascularization (Geha et al.), 27
A four-year experience with preoperative noninvasive carotid evaluation of two thousand twenty-six patients undergoing cardiac surgery (Brener et al.), 326

Vascular grafts
Prostaglandin production and platelet reactivity of small-diameter grafts (Sicard et al.), 774

Vascular registry
Development of a computerized vascular registry for large-scale use (Karmody et al.), 594

Vascular surgery
Just in time (Takats), 387
The risk of vascular surgery in a metropolitan community: With observations on surgeon experience and hospital size (Hertzer et al.), 13
There is no second (Bergan), 723
Vascular surgery: A brief look back and then to the future (Fry), 3

Vena caval filters
Suprarenal placement of vena caval filters: Indications, techniques, and results (Orsini, Jarrell), 124

Venous claudication
Pathophysiology of venous claudication (Killewich et al.), 507

Vertebral osteomyelitis
Treatment of *Aspergillus* infection of the proximal aortic prosthetic graft with associated vertebral osteomyelitis (Anderson, Kron), 579

Videodensitometry
Capillary blood flow: Videodensitometry in the atherosclerotic patient (Schwartz et al.), 800

W

Waveform analysis
Analysis of femoral artery Doppler signals by Laplace transform damping method (Baker, Machleder, Skidmore), 520
